

6 CLEAN WATER AND SANITATION

CLEAN WATER AND SANITATION IN PHILIPPINES

Rural areas and disaster affected areas of Philippines lack access to clean water sources and basic sanitation services.

SUSTAINABLE DEVELOPMENT GOALS

- Achieve universal and equitable access to safe and affordable drinking water for all
- Achieve access to sanitation and hygiene for all
- Improve water quality
- Support and strengthen participation of local communities in water and sanitation management.

CHALLENGES

- Many communities lack piped water and sanitation
- Natural disasters and programs are often underfunded

STAKEHOLDERS INVOLVED

Govt. of Philippines

International Organizations

NGOs

Private Sector

PROPOSED SOLUTION

- Upgrading water and sanitation infrastructure to ensure safe facilities and improve public health.
- Increasing community engagement and awareness.
